

Brian Carney, Partner, Raphael & Raphael LLP

"As a CPA Firm, we know the importance of properly-maintained and prepared bookkeeping records for small businesses. However, many business owners don't have the time to be concerned with day-to-day accounting, and many could benefit from higher-level consulting. That's why we refer our clients to ProfitLink Consulting. **The team at ProfitLink Consulting knows what it takes to prepare accounting records and continuously improve a company's financial status.**"

Bobby Cobb, Owner, Today's Collision Repair "The Official Collision Repair Shop of the Boston Red Sox"

"When I first met ProfitLink Consulting, I utilized their **basic accounting services** to organize my bookkeeping. Since then, I have taken advantage of their **advanced consulting services** to help me analyze my business and strategize for the future. The ProfitLink Consulting team has been an integral resource in all of our financial decisions since early 2002, including our growth assessment, **which resulted in the opening of our new 23,000 square foot facility.**"

Mark Roberts, Owner, A & M Construction

"When we were introduced to ProfitLink Consulting, we had a bookkeeper on staff, however, we needed assistance integrating our Job Costing functionality with the Sirius accounting system. The ProfitLink Consulting team helped us **optimize the use of all aspects of our system.** As a construction company, we rely on accurate calculations of Work in Progress. On a **monthly basis**, ProfitLink Consulting continues to assist us with those calculations, along with **closing our books** and **analyzing financial statements.**"

Maureen A. Rogers, President, North Suburban Chamber of Commerce

"Running a Chamber of Commerce involves coordinating a countless range of business elements for a diverse membership group. Having the ProfitLink Consulting team **oversee all of our bookkeeping tasks** has allowed us to focus on our main goal - developing resources for our members. On a monthly basis, we rely on their financial expertise for our Board of Directors meeting. Their **team-based approach** has enabled our Chamber to benefit from the wide knowledge base of the ProfitLink Consulting team, with the accuracy and confidentiality that we've come to expect."

Robert Segalla, Business Manager, Learning Prep School

"Initially, we hired ProfitLink Consulting to **integrate the complete functionality of the Macola financial software** into our monthly and annual closing processes. At the time, we were outsourcing our reporting functions, but ProfitLink Consulting was able to **design custom reporting** for us out of the Macola application, enabling us to bring it in-house. Since then, we have utilized the ProfitLink Consulting team to serve as **part-time Controller.** Working in this capacity, they helped us secure additional funding from the State, as well as obtain an additional line of credit with the bank."

AJ Yanakakis, Owner, UPS Store

"Franchise Owners, such as myself, are always on the clock, and always watching expenses. That's why I contracted ProfitLink Consulting on a **part-time basis.** **Once a month**, a member of the ProfitLink Consulting team reviews my accounting files, and **keeps me on track.** What's great is that, as our business changes, their services change with us. They have always been courteous and knowledgeable. It's reassuring to know that I have their expertise at my fingertips."
